

Basic

For aggregates

Usage and applications

In several concrete based industries, foundry, glass, ceramic, chemical, pharmaceutical, food and agriculture industries and many more.

Special Features

- ▶ High scanning speed to guarantee exact measurement
- ▶ High temperature stability (0 – 80°C)
- ▶ Deep penetrating measurement
- ▶ Smallest dimensions through latest electronic components
- ▶ Universal installation possibilities

(Technical Data)

Power Supply	+24V DC (+/-25%)
Outputs (analog)	2 x (0-20mA)
Power consumption	1,5W
Frequency	433,92MHz
Temperature range	0-80°C
Cable Connection	5 x 0,25 mm ² shielded (foil shield), L: 2 mtr. Miniature Round Connector 5-pole, male
Dimension	Ø: 75 mm, Lenght: 90 mm
Weight	0,83kg
Cover	High solid Aluminium, IP68
